

At Versetal, we are redefining the landscape of Managed Service Providers (MSPs), empowering organizations to navigate the complexities of the digital age from a position of strength. With a global footprint spanning North America, Europe, and Asia, we operate at the intersection of expertise and innovation. We provide award-winning scalable solutions to empower our clients to tackle their most pressing Security, Data, Applications, and Cloud/Infrastructure challenges with confidence and agility.

Security

Addressing & tackling your security needs no matter the size or complexity

Versetal goes beyond the traditional role of a technology solutions provider; we position ourselves as your Managed Security Services Provider (MSSP), offering a holistic approach to cybersecurity. Unlike other vendors, we don't just alert you to threats – we stand by your side, actively combating cyber threats alongside your team. Our Security Operations Center (SOC) is dedicated to Managed Detection and Response (MDR), Security Information and Event Management (SIEM), Incident Vulnerability Management (IVM), and Cloud Security (CloudSec). Additionally, we offer optional virtual Chief Information Security Officer (vCISO) advisory support to further strengthen your cybersecurity posture.

Security Service Offerings:

- 24/7 Security Operations Center (SOC)
- Threat Exposure Management
- Penetration Testing
- CloudSec
- vCISO Advisory

“Versetal’s security services were an absolute game-changer for our organization. They didn’t just protect us from threats; they saved our sensitive data when it mattered most. Their proactive approach and expert guidance truly elevated our security posture, giving us peace of mind in today’s ever-evolving threat landscape.”

Global Head of Infrastructure Engineering

Data

Enable & build your data assets to meet the evolving needs of your enterprise

Versetal stands at the forefront of data management, offering solutions tailored to meet the evolving needs of modern enterprises. Our suite of services spans data recovery, migrations, managed services, data analytics, transformations, and performance management. With a focus on security, reliability, scalability, and innovation, Versetal empowers organizations to harness the full potential of their data assets. We prioritize security, reliability, scalability, and innovation in everything we do. By focusing on these key pillars, we empower organizations to unlock the full potential of their data. Whether it's safeguarding critical data, transitioning to new platforms, or deriving actionable insights, Versetal is committed to delivering solutions that enable businesses to thrive.

Data Service Offerings:

- Data Recovery
- Migrations
- Managed Services/Remote DBA
- Data Analytics
- Transformations
- Performance Management

"Versetal's data services have transformed our approach to data management, enabling us to unlock valuable insights and drive informed decision-making. Their expertise in data recovery and analytics played a crucial role in safeguarding our data assets and driving business growth."

CIO, Apparel Manufacturing Company

Applications

Empowering & streamlining operations to drive business growth and innovation

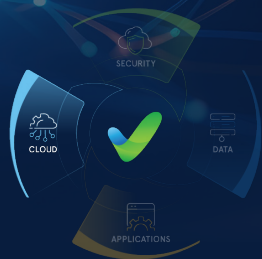

Versetal delivers cutting-edge solutions tailored to meet the diverse needs of modern enterprises, empowering them to drive business growth and innovation. Our suite of services spans a wide spectrum, encompassing managed services, functional helpdesk support, enterprise reporting, custom design & build solutions, business intelligence, and CRM/ERP systems. We believe that success in today's dynamic business environment hinges upon reliability, scalability, and agility. By leveraging our solutions, organizations can streamline their operations, adapt to changing market dynamics, and effectively achieve their objectives.

Applications Service Offerings:

- Managed Services
- Functional Helpdesk
- Enterprise Reporting
- Design & Build
- Ai & Automation
- CRM/ERP Systems

“Versetal’s applications services have revolutionized our operational efficiency and decision-making processes. Their expertise in managed services and custom solutions has provided us with the agility and scalability needed to stay ahead in today’s competitive landscape.”

VP of Enterprise Applications, LifeScience Organization

Cloud & Infrastructure

Supporting & optimizing your organization's digital transformation journey

At Versetal, we deeply understand the pivotal role that robust cloud and infrastructure services play in propelling your organization forward on its digital transformation journey. We pride ourselves on offering a comprehensive suite of solutions crafted to enhance and optimize your IT environment. Whether it's navigating the complexities of migrating to the cloud, efficiently managing your infrastructure, or providing unwavering support through our dedicated IT Helpdesk and Network Operations Center (NOC), Versetal is committed to being your trusted partner.

Cloud & Infrastructure Service Offerings:

- Network Operations Center
- Migrations
- IT Helpdesk
- Hosting
- DevOps & Engineering
- Cloud Security

"Our experience with Versetal's cloud and infrastructure services has been exceptional. Their expertise and dedication have enabled us to modernize our IT infrastructure, improve efficiency, and better serve our customers. From seamless migrations to proactive support, Versetal continues to exceed our expectations, allowing us to focus on achieving our business objectives."
